FireEye is the intelligence-led security company. Working as a seamless, scalable extension of custom operations, FireEye offers a single platform that blends innovative security technologies, nation-state grade threat intelligence, and world-renowned Mandiant consulting. With this approach, FireEye eliminates the complexity and burden of cyber security for organizations struggling to prepare for, prevent, and respond to cyber attacks. FireEye has over 7,100 customers across 67 countries, including more than 45 percent of the Forbes Global 2000. Visit us at booth E08!

Huawei will be presenting various aspects of security, including ICT security solutions (cloud, IoT, software-defined network security) and advanced security technologies to mitigate the security risk faced by enterprises in their digital transformation journey and share the latest technical advancement and contribution in the security fields.

When cyber threats have penetrated deep into your network, it takes more than machine algorithms to contain the threat. Visit Singtel's booth to experience how Trustwave's elite SpiderLabs team - ethical hackers, threat hunters, incident responders and researchers - hunt down and nip IoT threats in the bud.
