

Factsheet

Singapore International Cyber Week 2019

OVERVIEW

The Singapore International Cyber Week (SICW) – the region’s most established cybersecurity event, will take place from 1 to 3 October 2019 at the Suntec Singapore Convention & Exhibition Centre. Organised by the Cyber Security Agency of Singapore (CSA), SICW 2019 will see policy makers, business leaders, industry experts and academia around the world converge in Singapore where they will engage in dialogue on cybersecurity trends and challenges, showcase cutting-edge innovations, and collaborate on capacity building efforts.

Themed “Partnerships for Trust and Confidence”, SICW 2019 aims to drive international and regional cooperation for a trusted and secure cyberspace. The key events happening at SICW 2019 include the ASEAN Ministerial Conference on Cybersecurity (AMCC), GovernmentWare (GovWare) Conference and Exhibition, International Common Criteria Conference (ICCC), International IoT Security Roundtable, and Women in Cyber. GovWare 2019 is supported by 300 sponsors, exhibitors and partners and will feature 100 speakers over its 3-day conference.

Guest-of-Honour, Singapore’s Senior Minister and Coordinating Minister for National Security Mr Teo Chee Hean, will launch SICW 2019, while Mr S Iswaran, Minister for Communications and Information and Minister-in-Charge of Cybersecurity will be the hosting Minister.

Notable keynote speakers at SICW 2019 include H.E. Mr. Fabrizio Hochschild, Under-Secretary-General and Special Adviser to the Secretary-General on the Preparations for the Commemoration of the Seventy-Fifth Anniversary of the United Nations. He will be joined by other international and regional thought leaders, including Mr George Kurtz, CEO & Co-founder, CrowdStrike, Mr Lee Fook Sun, Chairman, Ensign InfoSecurity and Mr Kevin Mandia, CEO, FireEye.

Showcasing the latest trends, innovations and solutions in cybersecurity, the 28th edition of GovWare will see a wide-ranging representation of industry key players including leading global and local names such as Palo Alto, FireEye, IBM, Huawei, Cisco, Singapore Technologies, Singtel, PCS Security and Ensign InfoSecurity. The exhibition floor will feature cutting-edge technologies and the latest applications such as Artificial Intelligence (AI), Deep Data and Machine Learning. The UK Pavilion will be returning for its fourth year, and for the first time, the Israeli Economic and Trade Mission will present twelve companies under the Israel Pavilion.

KEY COMPONENTS

1. SICW 2019 Opening Plenary – *open to media*

Opening address by Mr Teo Chee Hean, Senior Minister and Coordinating Minister for National Security

1 October 2019, Suntec Singapore Convention & Exhibition Centre

The Opening Plenary brings together policy makers, influential business leaders and industry experts engaged in capacity building in the region. Public and private sector agencies and organisations gather at this event to discuss key cybersecurity issues, strategies and solutions.

2. ASEAN Ministerial Conference on Cybersecurity (AMCC) – *opening ceremony is open to media*

Opening address by Mr S Iswaran, Minister for Communications and Information and Minister-in-Charge of Cybersecurity

2 October 2019, Shangri-La Hotel

The AMCC complements the various cybersecurity collaborations amongst the ASEAN countries and provides a platform for discussion on ways to strengthen cybersecurity in the region. The event brings together ASEAN Ministers and senior officials from all 10 ASEAN member states to work towards greater cyber capacity and building across borders for our collective security.

3. GovWare Conference & Exhibition 2019 – *open to media*

1 – 3 October 2019, Suntec Singapore Convention & Exhibition Centre

Into its 28th showing, GovernmentWare (GovWare) is the region's most established premier conference and exhibition for cybersecurity and serves as the cornerstone event for SICW. Highlights at GovWare this year include participation by Country Pavilions from the UK, Singapore and for the first time, Israel, which will demonstrate a broad range of cybersecurity applications and technologies. Besides showcasing the latest developments and technologies from established companies around the globe, other interesting displays include the Startup Pavilion, which focuses on promising local companies and the IHL Pavilion where Institutes of Higher Learning will demonstrate a wide range of innovative applications and cybersecurity projects.

Keynote speakers at GovWare 2019 include:

- Tim Hwang, Executive Director, The Cognitive Security Institute
- George Kurtz, Chief Executive Officer, CrowdStrike
- Fook Sun Lee, Chairman, Ensign InfoSecurity
- Kevin Mandia, Chief Executive Officer, FireEye
- Conrad Prince CB, Senior Advisor, Cyber Security, BAE Systems Applied Intelligence

- Jeff Reed, Senior Vice President, Product, Security Business Group, Cisco Systems
- Ravinder Singh, President, ST Engineering
- John Suffolk, Senior Vice President and Global Cyber Security & Privacy Officer, Huawei

Please see **Annex A** for more information about the keynote speakers.

For the latest information on the track synopses and respective speakers, please visit <https://www.govware.sg/programme-overview.html>

Key highlights at GovWare 2019 include:

- **CXO Plenary – *by invitation only***

The CXO Plenary, jointly organised by CSA and Temasek Foundation, will bring together up to 180 C-suite executives and top decision-makers from public and private sectors to exchange views on key strategic developments and trends in cybersecurity. Themed *Cyber Resilience: The New Boardroom Priority*, this year's CXO Plenary will discuss ways that organisations can adopt to improve their cyber defences and build up resilience to mitigate cybersecurity threats. Senior Minister of State for Ministry of Communications and Information and Ministry of Culture, Community & Youth, Ms Sim Ann, will deliver the opening remarks.

- **Singapore Cyber Conquest – *open to media***

The Singapore Cyber Conquest is open to students of Institutes of Higher Learning in Singapore and ASEAN to test their cybersecurity capabilities in a near real-world cyber range. Participants will race against time to complete a diverse range of cybersecurity challenges that will put their cybersecurity skills and knowledge to the ultimate test.

- **Cybersecurity Challenge Singapore – Face-to-Face (F2F) Competition – *open to media***

Top players from the Singapore Floor in the UK-Developed CyPhinx, a Massive Multiplayer Online Game have been invited to compete in this exciting F2F competition. Players will embark on a series of real-life cyber incident response scenarios, where they will demonstrate their cybersecurity proficiencies to deal with the incidents.

4. International Common Criteria Conference 2019 – *open to media*

Opening speech by Dr Janil Puthuchery, Senior Minister of State for Communications and Information and SMS-in-Charge of Cybersecurity
1 – 3 October 2019, Suntec Singapore Convention & Exhibition Centre

For the first time, SICW 2019 will be hosting the flagship international forum for the Common Criteria industry – International Common Criteria Conference (ICCC). The ICCC is an annual event for the international IT security product evaluation and certification industry. Themed “Common Criteria in the Era of Global Digital Transformation”, the conference will bring together global thought-leaders, certification bodies, evaluation labs, product developers and policy makers to focus on the specification, development, evaluation, certification and approval of Common Criteria in IT security products. Previous host countries include Netherlands, United Kingdom, India and the United States of America.

5. **Women in Cyber** – *open to media*

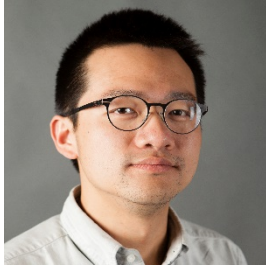

3 October 2019, Suntec Singapore Convention & Exhibition Centre

Co-organised by CSA and the High Commission of Canada, *Women in Cyber* aims to promote best practices and career opportunities to attract more females to the industry and expand the talent pool. Guest-of-Honour, Senior Minister of State for Ministry of Communications and Information and Ministry of Culture, Community & Youth, Ms Sim Ann, will deliver a welcome address. There will be a panel discussion with female cybersecurity experts from Canada, Australia, Japan and Singapore. Networking opportunities with the cybersecurity community including partner agencies and local cybersecurity communities such as industry associations and interest groups are available after the panel session.

Please refer to the following annexes for more information:

- **Annex B:** Quotes from Key Spokespersons
- **Annex C:** SICW 2019 Events Calendar
- **Annex D:** SICW 2019 Partners, Sponsors and Pavilions

GovWare 2019 Keynote Speakers

Tim HWANG
Executive Director
The Cognitive Security Institute

Tim Hwang is a writer and researcher focusing on the strategy and implications of online information operations. He is the former Director of the Harvard-MIT Ethics and Governance of AI Initiative, a philanthropic project working to ensure that machine learning and autonomous technologies are researched, developed, and deployed in the public interest. Dubbed “The Busiest Man on the Internet” by Forbes Magazine, his current research focuses on the geopolitical aspects of computational power and machine learning hardware, and regulatory frameworks around online disinformation and misinformation.

George KURTZ
Chief Executive Officer and Co-Founder
CrowdStrike

George Kurtz is the CEO and co-founder of CrowdStrike, a leading provider of next-generation endpoint protection, threat intelligence, and services. Kurtz is an internationally recognised security expert, author, entrepreneur and speaker. He has more than 26 years of experience in the security space, including extensive experience driving revenue growth and scaling organizations across the globe. His entrepreneurial background and ability to commercialise nascent technologies have enabled him to drive innovation to market throughout his career.

Fook Sun LEE
Chairman
Ensign InfoSecurity

Mr Lee is the Chairman of Ensign InfoSecurity and was first appointed as a Board member of Quann World in August 2017. He is the Chairman of the Building and Construction Authority and sits on the boards of DSO National Laboratories, SMRT Corporation Ltd and Great Eastern Holdings Limited. He is also the Corporate

Advisor to Temasek International Advisors Pte. Ltd.

Kevin MANDIA
Chief Executive Officer
FireEye

Kevin has served as FireEye Chief Executive Officer since June 2016 and was appointed to the company's Board of Directors in February 2016. He was previously President of FireEye from February 2015 until June 2016. Kevin joined FireEye as Senior Vice President and Chief Operating Officer in December 2013, when FireEye acquired Mandiant, the company he founded in 2004. Before Mandiant, Kevin was the Director of Computer Forensics at Foundstone (acquired by McAfee Corporation) from 2000 to 2003, and the Director of Information Security for Sytex (later acquired by Lockheed Martin) from 1998 to 2000.

Conrad PRINCE CB
Senior Advisor, Cyber Security
BAE Systems Applied Intelligence

From 2008 to 2015, Conrad Prince served as the senior official (Director General/ three-star equivalent) responsible for the intelligence and cyber operations conducted by Britain's signals intelligence and cyber security agency, the Government Communications Headquarters (GCHQ). In March 2015, Conrad was appointed the first UK Cyber Ambassador, a post he held until February 2018. After leaving Government service, Conrad took up a range of advisory roles relating to cyber and security. He is a senior adviser to BAE Systems Applied Intelligence, as well as in the financial services and specialist insurance sectors. He is a Distinguished Fellow at the leading UK think tank, the Royal United Services Institute, and their senior cyber advisor.

Jeff REED
Senior Vice President, Product, Security Business Group
Cisco Systems

Jeff Reed is Senior Vice President of Product for Cisco's Security Business. In this role he oversees product management, customer success and technical marketing

for the industry's leading security portfolio. Previously, Reed was SVP of Cisco's Enterprise Infrastructure and Solutions Group (EISG), encompassing a \$16B networking product portfolio, where his focus was on delivering Cisco's Digital Network Architecture (DNA). Prior to that, Reed had responsibility for the company's SDN solutions and architectures for enterprise customers. Additionally, he was General Manager for Cisco's largest switching business unit, the Unified Access Group.

Ravinder SINGH
President
ST Engineering

Mr Ravinder Singh is the President of Electronics, ST Engineering. Since the appointment in 2017, Ravinder has led the expansion of the business global network and partnerships, and the development of deep domain capabilities to shape connected, secure and sustainable cities. He also leads the Defence Business for the ST Group. Under his leadership, the Cybersecurity business has opened its Cybersecurity Academy and has advanced its innovative products and solutions, and even won a CES Innovation Award 2019. With over 30 years of technology and defence experience, Ravinder lends cybersecurity insights from both a practitioner and advisor perspectives.

John SUFFOLK
Senior Vice President and the Global Cyber Security
& Privacy Officer
Huawei

With more than 30 years of experience in the information and communications technology industry, John Suffolk is a Senior Vice President and the Global Cyber Security & Privacy Officer (GSPO) for Huawei. In this role, he oversees the enhancement and implementation of Huawei's end-to-end global cyber security assurance system, which includes monitoring and improving all aspects of information security across the company's global supply chain, in addition to the management of the Trusted Delivery Process. Mr. Suffolk is responsible for strengthening the company's understanding of information security issues of governments and operators and ensuring the trusted delivery of telecommunications

networks.

Annex B

Quotes from Key Spokespersons

Mr Lim Hock Chuan, Chief Executive, Temasek Foundation Connects *“Temasek Foundation hopes that deeper connections and cross-sector partnerships can be forged at SICW, to strengthen capabilities and resilience in maintaining the cyber safety of not just organisations and countries, but also individuals and businesses.”*

Mr Lee Fook Sun, Chairman of Ensign InfoSecurity *“Trust and confidence underpin cybersecurity. They are also the bedrock of Ensign’s relationships with our customers and partners. We will continue to develop our capabilities to keep their trust, as we lead them to conquer the unknown in a digitally transforming world. A strong cyber defence is the bedrock for transformation and growth of Singapore and its businesses in a digital economy. What many businesses and cybersecurity leaders are realising today in building cyber resilient organisations is that no one can do it alone. This is core to Ensign’s belief in growing our reach and capabilities through global partnerships, as well as being a trusted and long-term pure-play cybersecurity partner with a DNA that’s completely aligned to securing the cyberspace of Enterprises, Sectors and Nations. We look forward to meeting with partners and customers during SICW to define new priorities in protecting our digital economies.”*

Mr David Koh, Chief Executive, Cyber Security Agency of Singapore (CSA) *“We are honoured to once again welcome foreign and local dignitaries, cybersecurity thought leaders, industry experts and innovators to SICW 2019. Cybersecurity continues to gain prominence on the global security agenda, but at the same time, it also offers opportunities for economies to grow. We are excited to be a platform to bring the cybersecurity community together to exchange insights and discuss ways to tackle challenges in the ever-evolving cyberspace, as well as grow the industry through collaboration and innovation.”*
